

PROTIME PLUS™ unique formula contains:

- ✓ Premium Four-Protein Complex
- ✓ Grass Fed Whey Concentrate / Isolate
- ✓ BCAAs and Essential Amino Acids
- ✓ Prebiotic and Digestive Enzymes
- ✓ Nootropics Brain Complex[†]

SMART COMPLEXES

Premium Four-Protein Complex

Milk contains two types of proteins, casein and whey. Casein is 80% of the milk protein, while whey is 20%.

Proteins digest at different rates. Whey protein is referred to as the fast digesting protein while casein is a slower digesting protein.[†]

In **ProTime Plus™** we combine a four-protein complex, so you get the benefit of each protein. The whey protein portions will release protein quickly to supply your muscles with amino acids, whereas casein portions will digest more slowly to release amino acids over a prolonged period.[†]

Grass Fed Whey Protein Concentrate 80%

ProTime Plus™ contains a high quality whey protein concentrate (80%) derived from dairy cows that have a 100% grass-fed diet. Whey protein concentrate can help build lean muscle and aid recovery. Grass-fed dairy contains lower levels of saturated fats and high concentrations of Omega 3 fatty acids and conjugated linoleic acids (CLA), which is a type of omega 6 fatty acid known to help reduce body fat and have cardiovascular and metabolic benefits.[†]

Grass Fed Whey Protein Isolate 90%

Our high quality grass fed whey protein isolate contains a higher percentage of pure protein (90%) than whey concentrate. It is highly bioavailable and is very quickly absorbed into the body. It has a high concentration of branched-chain amino acids (BCAAs) which helps fuel working muscles. The high level of leucine, cysteine and amino acids, in combination with the high level of pure protein with practically zero fats and lactose, has made it a popular choice for muscle and fitness enthusiast.[†]

Micellar Casein 80%

Micellar Casein is a rich source of BCAAs and Glutamine. This is known as the slowest digesting form of casein as it forms micelles when added to fluid. It provides a slow release of amino acids into the bloodstream.[†]

Milk Protein Concentrate 80%

Our Milk Protein Concentrate at 80% contains micellar casein, whey proteins, and bioactive proteins in the same ratio found in milk. This also provides a difference in the time of release of the amino acids.[†]

Nootropics Brain Complex†

There’s a lot of research on the four ingredients we refer to as our Nootropics Brain Complex, but we will give you just a short description of each.

L-Tyrosine: Tyrosine is an amino acid. Amino acids are the building blocks of protein. The body makes tyrosine from another amino acid called phenylalanine. The body uses tyrosine to make chemical messengers that are involved in conditions involving the brain such as mental alertness.¹

L-Theanine: Tea is known to be a rich source of flavonoid antioxidants. However, tea also contains a unique amino acid, L-theanine that may modulate aspects of brain function in humans.²

Huperzine A: Huperzine A is a naturally occurring compound found in the firmoss Huperzia serrata (Chinese club moss). There’s a ton of research on the benefits of Huperzine A. It may increase the levels of acetylcholine and other neurotransmitters in the brain.³ One systematic review suggests that Huperzine A appears to have beneficial effects on improvement of cognitive function.⁴

MCT Oil Powder: Medium-chain triglycerides (MCT) is a healthy fat that converts to a unique source of energy called ketones. Ketones are a clean alternative energy source for the brain and body. MCT may also help with weight management.[†]

Prebiotics & Digestive Enzymes

Fructooligosaccharides (FOS) are found naturally in plants such as onion, chicory, garlic, asparagus, banana, artichoke, among many others. They are calorie free and considered a soluble dietary fiber and prebiotic, not to be confused with probiotics.⁵ Prebiotics stimulate the growth of beneficial intestinal bacteria such as Bifidus and Acidophilus.[†]

Papain is derived from the fruit of the papaya tree. Papain contains substances called enzymes that help break down proteins within the body.[†]

Lactase is a digestive enzyme essential to the complete digestion of milk. This enzyme helps to digest lactose, a sugar found in milk and other dairy products.[†]

Magnesium 10mg	2%
Sodium 90mg	4%
Potassium 150mg	3%

Prebiotic Enzyme Complex† 4g **

Fructooligosaccharides, Papain, Lactase

Nootropics Brain Complex† 1g **

L-Tyrosine, Medium-Chain Triglyceride (MCT) Oil Powder, L-Theanine, Huperzine A (Huperzia serrata Leaf Extract)

Not a significant source of vitamin D and iron.

*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

** % Daily Value (DV) not established

PROTIME PLUS™ contains high quality grass fed whey proteins, milk proteins, prebiotics, digestive enzymes, plus natural nootropic ingredients to support your mind and body.[†]

PROTIME PLUS™ contains NONE of the following:

- NO GMO
- NO Soy
- NO Gluten
- NO Artificial Colors
- NO Sucralose
- NO Aspartame
- NO Acesulfame-K
- NO Artificial Flavors

Suggested Use: As a dietary supplement, add one packet to 8 oz. of water. Stir, mix or blend.

This product is sold by weight, not volume.

CAUTION: Consult with your physician before taking this or any other dietary supplement, especially if you are pregnant or nursing, or if you have or suspect you may have a medical condition, or are taking any medications, over the counter products, or other dietary supplements. Immediately discontinue use and consult your doctor if any adverse reactions occur.

KEEP OUT OF THE REACH OF CHILDREN. STORE AT ROOM TEMPERATURE, TIGHTLY CLOSED AND AVOID EXCESSIVE HEAT.

Other Ingredients: Premium Four Protein Complex (Whey Protein Concentrate, Micellar Casein, Milk Protein Concentrate, Whey Protein Isolate), Erythritol, Sunflower (Non Dairy) Creamer, Cane Sugar, Natural Flavors, Xanthan Gum, Natural Silica, Monk Fruit Extract.

Contains milk.

Carefully Manufactured for:
Celljetics LLC
1201 Allen Drive #307
Grand Island, NE 68803
